## **Energy Sector**

Nothing to report

## **Chemical Industry Sector**

Nothing to report

## **Nuclear Reactors, Materials, and Waste Sector**

1. *November 2, U.S. Federal Register* – (National) **Cyber security event notifications.** The U.S. Nuclear Regulatory Commission adopted new rules effective December 2 to guide nuclear power plants following the commission's analysis on the reliability and effectiveness of nuclear power reactor licensees. The guidelines establish new cyber security event notification requirements, codify certain reporting activities, and help provide high assurance that communication systems and digital computers and networks are providing adequate protection against cyber-attacks.

15. *October 30, U.S. Food and Drug Administration* – (National) **Kar's Nuts recalling certain packages of Sweet 'N Salty Mix.** Kar's Nuts, Inc., issued a voluntary recall October 22 for a limited number of packages of its Sweet 'N Salty Mix products after consumer reports revealed that a hard, clear foreign material was found in several packages.  
Source: <http://www.fda.gov/Safety/Recalls/ucm470332.htm>
16. *October 30, U.S. Food and Drug Administration* – (Oregon) **Farmer Creek is issuing a voluntary recall on canned albacore tuna products because of a possible health risk.** Cloverdale, Oregon-based Farmer Creek issued a voluntary recall October 30 for its canned albacore tuna products manufactured by Skipanon Brand Seafoods LLC due to potential Clostridium botulinum contamination after an inspection at the manufacturer revealed that the products may have been under-processed. The products were sold to farm stands and farmers markets in Oregon.  
Source: <http://www.fda.gov/Safety/Recalls/ucm470366.htm>
17. *October 30, U.S. Food and Drug Administration* – (National) **Giant Food alerts customers to voluntary recall of Nature's Promise Organic Edamame.** Landover, Maryland-based Giant Food, LLC recalled Nature's Promise Organic Edamame products October 30 due to misbranding and undeclared soy. The products were taken off store shelves and customers were advised to discard any unused products.  
Source: <http://www.fda.gov/Safety/Recalls/ucm470386.htm>
18. *October 30, U.S. Food and Drug Administration* – (National) **Stop & Shop alerts customers to voluntary recall of Nature's Promise Organic Edamame.** The Stop & Shop Supermarket Company LLC recalled Nature's Promise Organic Edamame products October 30 due to misbranding and undeclared soy. Customers were advised to discard any unused products or return the products for a full refund.  
Source: <http://www.fda.gov/Safety/Recalls/ucm470388.htm>

## **Water and Wastewater Systems Sector**

19. *November 2, USA Today* – (Texas) **2M gallons of sewage spills in Houston bayous.** Recent heavy storms in the Houston area overwhelmed the waste water system and caused more than 2 million gallons of sewage to spill out at 4 sites and potentially influenced Halls, White Oak, Brays, and Sims bayous October 31. Officials issued a water advisory to the public.  
Source: <http://www.usatoday.com/story/news/nation-now/2015/11/02/2m-gallons-sewage-spills-houston-bayous/75029570/>
20. *October 30, Del Ray Patch* – (Washington, D.C.) **Reagan National Airport jet fuel spills into Potomac River.** Officials reported that an estimated 7,500 to 9,000 gallons of Jet A aviation fuel spilled into the Potomac River south of Reagan Washington

National Airport October 29. The source of the spill is secure and all recoverable fuel was removed from storm water overflow drains on the airport property, while crews continued to clean the scene with an estimated completion date of October 31.

## **Emergency Services Sector**

Nothing to report

## **Information Technology Sector**

24. *November 1, Softpedia* – (International) **Latest flash zero-day bug already part of the Angler and Nuclear exploit kits.** Researchers from Malwarebytes detected that recent

versions of the Angler and Nuclear exploit kits (EK) were actively integrating and using a previously patched Adobe zero-day flaw that affected several Flash versions on Windows and Linux systems which could allow successful exploitation causing a crash and allowing the hacker to take control of the affected system. Experts recommended that users disable Flash in browsers while it is not in use.
